The Definition of a Resolution

- A Resolution is proof that an entity has decided to take certain action and evidence that the person signing the agreement has the necessary authority to bind the entity
- A Resolution must accompany all applications
- A Resolution is a proposal made and passed/approved at a meeting
- There is no set format to a Resolution; it may come in varied forms
- The Resolution needs to ensure that it authorises the entity to enter into the agreement concerned, whether specifically or in general terms wide enough to cover the agreement and the signatory(ies) are appointed to sign such agreements on behalf of the entity

Required Resolution Criteria

- The Resolution needs to be agreed upon and signed by all the directors/shareholders/members of the entity or directors/members constituting a quorum. It cannot merely be signed by the signatory to the agreement
 - The date of the Resolution must predate the date on which the agreement is signed
 - If no Resolution is available then the decision may be evidenced by a certified extract from the minutes of a formal meeting of the directors/shareholders/members signed by the chairman/company secretary of the meeting
 - Please note – listed alongside each legal entity in the Application Criteria we have clearly indicated who the Resolution should be signed by
- The more specific a Resolution the better. An ideal Resolution should:
 - Authorise the application for a Diners Club Account
 - Authorise signatories to the application, the account and any subsequent documentation submitted to Diners Club
 - Authorise the signatories to bind the entity to the Terms and Conditions of use of the Diners Club Card Account
