SOUTHERN CROSS

There's a quiet magic in the night sky. A sense of wonder and connection that transcends time. Visible only in the southern hemisphere, the Southern Cross has guided explorers through unknown waters for centuries.

Shimansky's Southern Cross Collection captures this celestial legacy in exquisite designs, crafted in a range of precious metals and rare stone combinations, featuring gems older than the constellation itself.

TANZANITE

A thousand times rarer than a diamond, Tanzanite captivates with its extraordinary blue-violet brilliance a gemstone born in a single place on Earth and destined to become ever more rare. Each Shimansky Tanzanite is expertly cut and crafted to reveal each stone's full radiance, transforming nature's miracle into a timeless expression of beauty, meaning, and individuality. Shimansky Tanzanite rare today, treasured forever.
